

Product Data Sheet

Gravel Retainer KL 60/80 up to KL 140/160

Angle profile with drainage slots on both legs, made of extruded aluminium, handy for transport, usable on both sides.

Technical Data

Gravel Retainer

Angle profiles made of natural aluminium AlMgSi 0.5 F22 for the separation of different build-ups, e.g. gravel strips and vegetated areas, strips of Zincolit® Plus or similar. Length ca. 2.0 m.

Type:	Order No.:	Profile height:	Material thickness:	Weight:
KL 60/80	7760	ca. 60/80 mm	ca. 1.5 mm	ca. 0.6 kg/m
KL 80/100	7767	ca. 80/100 mm	ca. 1.5 mm	ca. 0.8 kg/m
KL 100/120	7765	ca. 100/120 mm	ca. 1.5 mm	ca. 1.1 kg/m
KL 140/160 *	7745	ca. 140/160 mm	ca. 2.2 mm (on average)	ca. 2.0 kg/m

Accessories:

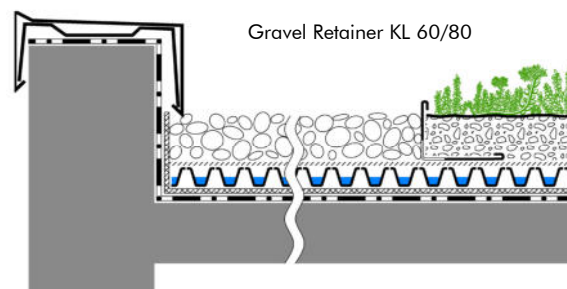

- Connector for KL 60/80: Order No. 7907
 - Connector for KL 80/100: Order No. 7909
 - Connector for KL 100/120: Order No. 7911
 - Connector for KL 140/160 (for cut pieces): Order No. 7746
 - Corner connector for KL 60/80 (H= 60 mm): Order No. 7916
 - Corner connector for KL 60/80 (H= 80 mm): Order No. 7917
 - Corner connector for KL 100/120 (H=100 mm): Order No. 7918
 - Corner connector for KL 100/120 (H=120 mm): Order No. 7919
 - Corner connector for KL 140/160 (H=140 mm): Order No. 7920
 - Corner connector for KL 140/160 (H=160 mm): Order No. 7921
 - Welded preassembled corners available on request!
(Leg length of approx. 220 mm x 220 mm)
 - Fastener for Gravel Retainer: Order No. 7905
- * with integrated butt joint connector (total length approx. 2.05 m)

Features

- profiles usable on both sides, thus two heights are covered with only one product
- for the separation of build-ups with different heights respectively different materials
- slots on both legs for vertical and horizontal water runoff
- butt joint connectors for aligned edges available as accessories; in case of KL 140/160 a butt joint connector is already integrated
- additional fasteners allow for use at slight inclination

Application Example

“Enclosure of planting area”

Specification Suggestion

Angle profile made of extruded aluminium with drainage slots on both legs; material thickness depending on type between ca. 1.5 mm and ca. 2.2 mm; length ca. 2.0 m; profile height depending on type between 60/80 mm and 140/160 mm; delivery and aligned

installation including butt joint connectors.
